

MONDAY'S GOSSIP
FROM WASHINGTONSABBATH MEETING OF THE
TARIFF CONFEREES.

The Discussion turns on a Bounty For the Louisiana Planters—Agreement to be Reached Within Seventy-Two Hours—Southern Senators Are Stiff-Backed.

WASHINGTON, Aug. 6.—The usual Sunday quiet of the capitol building was broken yesterday by the assembling of the democratic tariff conferees at 2:30 o'clock in the senate committee room on interstate commerce. All of the democratic conferees were present except Senator Voorhees, who is still sick, and Chairman Wilson, who had gone to West Virginia to see his sick wife. The meeting lasted until 6 o'clock and was marked with even more than the usual secrecy. Some of the conferees declined to admit that they were together. The meeting resulted in an understanding that a report should be made one way or another—agreement or disagreement within the next seventy-two hours. That it would be an agreement was not, however, definitely settled. On this point the conferees say they have not yet passed the danger point, although they seemed confident that it would be an agreement.

The discussion yesterday again turned on sugar iron ore and metal. The fact that these items are receiving attention is taken to indicate that the next sugar schedule has been thoroughly canvassed, and that it will be the basis of agreement unless some new obstacle intervenes. The house conferees are proceeding without reference to the strong opposition to new sugar schedule by the Louisiana senators. This opposition may be overcome, however, by permitting the present bounty or a portion of it to run until Jan. 1 next.

The Louisiana opposition has been due mainly to the fact that provision has been made for bounty in the senate bill, and it has been urged that it was bad faith to cut off the bounty when the present sugar crop was put in on the basis of a bounty. By postponing the time at which the bounty provisions of the McKinley law shall be repealed until Jan. 1 it would operate on the crop about to be gathered. This, like other details of the proposition, are not yet agreed on, but it was mentioned by one of the conferees as a fair concession to the Louisiana men, and one likely to overcome their opposition. The Louisiana senators have said that they would be willing to accept half of the bounty for the first year in addition to the duty in the new compromise schedule.

Some attention has also been given to the income tax, and while a final agreement has not been reached it is practically conceded that the senate limit of five years will be adopted. The house conferees feel that if the tax is in operation for five years it will so recommend itself that an extension of the system will be enacted at a subsequent congress. Efforts are being made, however, to extend the limit to six or eight years.

Representative Richards of Ohio will to-day sound the keynote of an important innovation in the manner of enacting the laws of the country. This will be no less than a bill providing that every session of a legislative body of the national congress shall be open to the public. This will include the executive sessions of the senate, all meetings of committees of the senate and the house sub-committees of these bodies, and conference committees. In short, if this bill ever becomes a law no more legislation will be shaped behind closed doors.

LITTLE BUSINESS FOR SENATE

Were the Tariff Bill Disposed of It Could Speedily Adjourn.

WASHINGTON, Aug. 6.—With the tariff disposed of the senate could probably adjourn in three or four days. The last of the general appropriation bills has passed both houses, and a majority of them have been signed by the President. Some of these bills are in conference still, but if an agreement upon them would bring an adjournment it would not long be delayed, as there are no irreconcilable differences between two houses on appropriations. There are no measures other than the tariff bill and the appropriation bills which would be strong enough to hold the senate together for even a day. The probabilities for the week include a report from the tariff conference committee, and subsequent debate, and also the presentation of the conference reports on the sundry civil, river and harbor, Indian, and general deficiency appropriation bills, and the consideration of the calendar when these more important matters do not occupy a position to receive attention. The immigration bill comes up to-day at 2 o'clock, and in lieu of the tariff may excite considerable debate.

House Awaits Conference Reports.

WASHINGTON, Aug. 6.—The house will proceed this week as it did last, without a fixed program. The house is simply awaiting the final report on the tariff bill. All its routine business has been transacted and it is simply waiting. To-day, however, is being devoted to the Settle-Williams contested election case from North Carolina. The remaining days will be assigned to the

routine of the committee, subject always to conference reports. If the conferees on the tariff reach an agreement this week the report will first be considered in the senate, and after being disposed of there will come to the house. If the report is not made before Wednesday there is no probability that it will get to the house this week. When it does reach that body it is not the intention of the house managers to allow any protracted debate.

Financial Situation Good.

WASHINGTON, Aug. 6.—There are differences of opinion among treasury officials as to the probabilities of another bond issue. Neither Mr. Carlisle nor Assistant Secretary Curtis is willing to admit that there is any real cause for alarm in the present financial situation. It is contended that notwithstanding the fact that the gold reserve has reached the low watermark of about \$52,000,000, the government is really far better able to meet its obligations to-day than it was just prior to the February bond issue.

WORK OF REVENUE.

John Oman of Findlay, Ohio, Finds His Wife Dead.

FINDLAY, Ohio, Aug. 6.—Late Saturday night when John Oman, a farmer living eight miles southwest of this city, returned home after a day's absence, he found his wife dead in bed with her throat cut from ear to ear. The theory of suicide was at first accepted, but all the evidence seemed to point to a deliberately planned murder. Important clues to the perpetrator having been discovered. Five years ago the Oman house was entered in the evening by a gang of masked robbers who bound, gagged, and tortured the family into confessing the hiding place of a large sum of money. Arrests were made of a score of parties and several were recently sent to the penitentiary. It is supposed these prosecutions incited the present crime and the country is greatly excited over this additional outrage.

FIRE AT MARION, IND.

Several Firemen Overcome by Heat and \$75,000 Damage Done.

MARION, Ind., Aug. 6.—Sweetzer's lumberyard, Mark, Burge & Lake's flouring mill, H. Beshore's grocery, Fiest's bakery, Fanser's drug store, Luther Culbertson's saloon, William Stevens' saloon, a restaurant, a residence and other buildings, besides a number of Panhandle box cars, were destroyed by fire here last evening. The loss will probably be \$75,000. Frank Calloway, an electrician for the Marion Street Railway company, fell twenty feet, striking on his head, and was seriously injured. Several firemen were overcome with heat.

VALPARAISO, Ind., Aug. 6.—Fire early this morning destroyed H. C. Johnson & Co.'s lumber yard and stable. Three horses were burned to death. Loss, \$2,000, with small insurance.

Milwaukee Small-Pox Riot.

MILWAUKEE, Wis., Aug. 6.—The first small-pox riot took place here last evening on the south side and resulted in a decisive victory for the mob, although there was no bloodshed. The authorities wished to remove a child to the pest house and fully 3,000 men and women blocked the street and loudly declared that the child should not be moved. There was some parleying, and rather than provoke a riot, the health officers with drew for the time being. It is feared there will be trouble when the attempt is made to move the child to the pest house.

Arrested on a Charge of Murder.

INDIANAPOLIS, Ind., Aug. 6.—John McAfee, who was arrested in Chicago and brought here, is supposed to be one of the gang who murdered Policeman Watterson in this city last Christmas morning. William Cole, also charged with participation in the same murder, lies in the county jail. He is from Castleton, and was arrested and brought here Wednesday night.

Lightning Strikes a Barn.

AUGUSTA, Ill., Aug. 6.—During the recent storm a barn belonging to William Bacon was struck by lightning and burned with its contents, valued at \$3,000, forty tons of hay, a span of mules, and other property. Two men were sleeping in the barn at the time and narrowly escaped with their lives.

STRIKE IS OFF NOW
ON ALL THE ROADSAMERICAN RAILWAY UNION
MEN TO GO BACK.

Order Declaring the Strike Off Went Into Effect at 7 O'clock this Morning—Stock Yards Trouble Also Ended—Situation at Omaha and at Other Western Points.

CHICAGO, Aug. 6.—By the action of the Chicago local unions of the American Railway Union the great strike has been declared off upon all lines in this city, with the exception of the Chicago & Eastern Illinois and Atchison, Topeka & Santa Fe roads.

This determination was taken at a mass meeting of railroad men held yesterday and is the result of a secret session of representatives from each local union, the question being decided by ballot. The order went into effect at 7 o'clock this morning. It does not apply to railroad systems or to lines outside the city. The fight will still be waged upon the two roads which are mentioned in the order, and, it is said, with every prospect of success.

No action was taken in regard to the strike at Pullman. That affair, it was stated by the committee, would be settled by the local union at that point. The strike committee, or the general committee, as it is called, will continue in force, and will meet at the call of the chairman.

While a number of railroad men are apparently satisfied that the strike should be declared off, open hostility is manifested against working with nonunion men. The opinion is general that the roads will seek to displace their new employees with the old men as rapidly as practicable, without issuing a general order for their dismissal. Many of the roads, it is said, have announced that they will give the old men positions as fast as vacancies occur.

PLAN FOR ARBITRATION.

Strikers at the Omaha Packing-Houses Hold an All-Day Meeting.

OMAHA, Neb., Aug. 6.—The executive committee of the strikers, which was in session all the afternoon and evening yesterday, gave out for publication the proposition for arbitration, a copy of which was sent to each of the packers in the morning. It is believed the packers will pay no attention to the terms. Twelve new men were persuaded to quit work at Cudahy's yesterday. Twenty-five butchers were taken to the Cudahy plant, and were not seen by the strikers on guard until they had run the gauntlet and reached the second picket line or the specials, where the strikers did not attempt to follow. Some new men were taken in at all the houses yesterday, and as soon as they reported for duty their names were taken and they were given a number and sent to the sleeping apartments.

LASALLE TO RESUME.

Sheriff and Deputies on Hand to Prevent Trouble by Strikers.

OTTAWA, Ill., Aug. 6.—Sheriff Taylor was summoned to LaSalle last evening by the operators of the coal mines at that place. It is the intention of the latter to put all the mines in that city in operation at once, giving employment to more than 500 men. The fact that the miners of LaSalle intend to return to work has aggravated the miners at Spring Valley, and they threaten to march into LaSalle and stop the work at the mines. Sheriff Taylor, with a company of 100 deputies armed with Winchester rifles, is at LaSalle, and will preserve order and protect the men that return to work.

Declare the Great Strike Off.

CHICAGO, Aug. 6.—At a meeting of stock yards employees and members of local union 461 of the American Railway Union held last night it was decided unanimously to call the strike off. The men return to work this morning. This affects all the employees of the yards who belong to the American Railway Union, and also the other industries connected with the stock yards. The decision was received with applause.

Railroad Men Decide to Return.

TERRE HAUTE, Ind., Aug. 6.—At a meeting last night of the local lodge of the American Railway Union the men on a strike voted conditionally to declare the strike off. A committee was appointed to make an appeal to the railway officials to reinstate the men now out, but it could not be learned if the demand would be made to take back all or none of the strikers. Two of the roads have declared that no agitator could secure work under any condition.

Miners Capitulate at Danville.

DANVILLE, Ill., Aug. 6.—At a mass meeting of miners held yesterday it was agreed to accept the proposition of the operators at the Pawney and Kellyville mines and go to work at \$2.50 a day. The miners of the Consolidated company mines were not represented at the meeting and are still out. It is thought they will be at work in a few days.

FIGHTING REPORTED AT BLUEFIELDS

Desperate Battle Is Reported in Progress on the Mosquito Coast.

COLON, Columbia, Aug. 6.—There has been fighting at the Bluefields Bluffs, it is reported, without any advantage having been gained by either side. Chief Clarence is leading the Mosquito Indians, who are aided by a number of Americans. Gen. Cabezas, the Nicaraguan commander, denies he is to be relieved or that he has received orders to change his policy. It is expected the present struggle will be desperate. The Indians will fight stubbornly, though it is thought the Jamaicans may abandon them at a critical time. Another British warship has been ordered to the Mosquito coast from the West Indian station, it is said. American and British marines are still on shore and will remain there to protect foreigners. The Mosquito commissioners have bought a quantity of arms which have been stored here nearly a year. The arms have been shipped to the coast on a chartered schooner.

KEEP PEACE IN SHANGHAI.

Resident Japs Advised to Keep Away from the Chinese.

SHANGHAI, Aug. 6.—The rumor current to the effect that the Japanese fleet had captured three men-of-war has not been confirmed. It is believed here the report is possibly a rehash of the reports of the prior engagements of the fleets. As yet there has been no disorder in Shanghai growing out of the war beyond a few trifling encounters between Japanese and Chinese rowdies. The municipal council has appointed a rendezvous for the volunteers in the event of an emergency arising that will require their services, but no anxiety is felt as to the safety of Europeans. The Japanese association, which includes among its members the leading Japanese of Shanghai and vicinity, has issued a warning to the Japanese residents that they must behave themselves and avoid any act that would tend to precipitate a conflict with the Chinese. They are particularly warned to keep away from the Chinese quarter of the city after dusk and to remain as far as possible within the confines of their own settlement.

Riots at Kobe and Taku.

LONDON, Aug. 6.—A dispatch received in this city from Shanghai reports that serious riots have occurred at Kobe, Japan, and Taku, China. In the latter place the Chinese openly insulted the members of the Japanese embassy, who were returning to Japan from Peking.

PICNIC PARTY HURT.

Wagon Collides With an Electric Car and Injures Many People.

BELLAIRE, Ohio, Aug. 6.—While returning from St. Clairsville about midnight, a picnic wagon in which were twenty-five persons drove onto Whiskey Run bridge, traversing the tracks of the Wheeling & Bellaire electric railway. A car in charge of Motorman McConnaghy was being run on a supposedly clear track, when it came upon the wagon at full speed, hurrying it off the bridge with all its occupants and the four horses. There was a sheer fall of twenty feet. Two of the four horses were killed, the other crippled, eight of the passengers were seriously injured and the others more or less hurt. Emmett Pickett, the driver of the wagon, is not expected to live. Both the car and the wagon were completely wrecked.

Disastrous Fire in Turner, Ill.

TURNER, Ill., Aug. 6.—A disastrous fire that for a time threatened to wipe out the entire business portion of the village occurred here at 12:10 o'clock yesterday morning. The only thing that saved the entire business portion of the town was the fact that no wind was blowing. The origin of the fire is unknown. The losses are as follows: Edward Stephens, two buildings, \$1,500, insured for \$800; Ed Northrope, \$500 on shoe store and household goods, insured for \$400; S. Brimes, on barber furniture, \$800, insured for \$300; Mrs. M. A. Briggs, building and furniture \$2,500, insured for \$1,200; Campbell & Kruse, stock of hardware, damage \$50; town hall slightly damaged; brick building of Michael Fessler, walls badly damaged, \$500, insured.

SENSATION IN ATCHISON.

Important Meeting of Reorganization Committee Will Be Held.

NEW YORK, Aug. 6.—The Herald this morning says:

"The Atchison railroad scandals may develop sensations that will throw in the shade McLeod's transactions in the Philadelphia & Reading. Members of the protective commission say there will be many dramatic incidents in connection with the investigation of the supposed systematic overcharging of accounts to the extent of \$7,200,000. President Reinhardt, it is said, is preparing to take a long vacation for his health. He will return to New York Monday in time to attend an important meeting on that day of the reorganizing committee, when a stormy time is expected in connection with the supposed with the supposed fictitious bookkeeping during the four years prior to the receivership. The directors of the company seem to have been put to great confusion and it is thought that certain of them will attend the meeting and take the opportunity to free themselves from any suspicions that may be entertained."

The viceroy also sent an apology to the British consul and ordered the punishment of those responsible for the removal of the Japanese from the ship. All the Japanese residents of Peking have left that city.

AFTER ARTHUR'S SCALP.

Claim He Is a Stockholder in a Non-Union Newspaper.

RICHMOND, Ind., Aug. 6.—J. L. Joyce, a local labor leader, in connection with other labor leaders over the country, is after the scalp of P. M. Arthur of Cleveland, Ohio, grand chief of the Brotherhood of Locomotive Engineers. An extensive correspondence is now being carried on with a view to ousting Mr. Arthur from his position in the labor world. The charges against him are that he is a stockholder in the Cleveland (Ohio) Leader, which is a nonunion office, and that he is interested in a savings institution which furnished Governor McKinley money to pay off the militia called out during the late labor troubles.

The vessel is built of white oak and the fire raged fiercely. The cause of the fire is unknown, but it is supposed to have originated in some waste. The loss is \$2,000.

ODD SORT OF COUNTY JUST NORTH OF HERE

ADAMS, A CENTRAL BUT MOST
SECLUDED DIVISION.

Many of the Residents Have Never
Seen a Railroad Train and Are
Slowly Withering Up on Sand
Heaps Within Twenty Miles of the
State Capital.

Adams county is by all odds the
oddest county in the state. It ex-
tends north from near Kilbourne City
and much of the grotesque part of the
"Dells of the Wisconsin" is in this
odd county. One could go from
Madison to Adams county during a
church service. But to go from Mad-
ison to Friendship, the county seat,
would require as long as to go from
Madison to Lake Superior, for Friend-
ship is reached only after a slow stage
ride of about twenty-five miles.
Adams county is the only county in
Wisconsin having no railroad or
steamboat line within its borders.

Adams county is in the heart of
Wisconsin, yet it is as secluded as any
county in the state. And it is one of
the oldest settled, yet one of the least
settled of any county, having gained
only twenty-one in population from
the census of 1855-90, or about a half
of a man a year. No county in Wis-
consin, and probably no county in the
west, shows such a small increase
since 1855. One can buy wild land in
this county, "every foot of which can
be cultivated," for \$1 per acre, with
the risk timber thereon "thrown in,"
and thousands of acres have been ob-
tained by paying the taxes.

In going over parts of this county
one is reminded of the abandoned
farm districts of New England. Not
many miles from Friendship is to be
seen farm after farm with deserted
log houses in which the owls hold
nightly meetings. And one sees "old
timers" still living in these districts,
grizzled fathers with grizzled beards
and grizzled bodies, who have humped
themselves to make both ends meet
until their grey heads are bowed
nearly to their feet, giving them the
fornal look of the sand-hill crane. And
here they live as primitive and as far
from modern civilization as they were
a generation ago, when they were
promised railroads that never came
any closer than twenty miles away.
Ardinary of them to get to a rail-
road must travel the greater part of a
day over sand roads, which are slower
than mud roads.

Some of these people are led to take
life as a joke in order to relieve the
seriousness. One of these told the
following: "A couple of us lately took
our families over into another county
where there is a railroad. When the
train went up by us our women and
children were so frightened at the
novelty that we had to hold them
from running away."

There are no statistics of the great
number of "dupes" who have been
"April fooled" in buying this sandy
land, "sight not seen." Yet the county
officers have many stories to tell of the
people who come to them with great
hopes in a "sight not seen," and one
of these "dupes" is on record as hav-
ing committed suicide after having
seen the 160 acre sand bank in which
he had deposited all his hard-earned
fortune.

But there is much good, rich land
in Adams county. And many people
who do not live in those forlornly
primitive conditions. And many
frugal foreigners are but lately going
into the county and buying lands for
a song, and are making comfortable
livings where the old-time Yankees
was starved out. And as two lines of
railway are lately surveyed or planned,
to run through there, this oddest
county may get even at last and find
modern civilization.

FIFIELD BROS.

WILL TRY "TILTING" AT THE RING. Old Scotch Game to Be Revived at the Caledonian Festival on Friday.

This competition which will be in-
troduced at the Scotch games for the
first time is taken from the old time
tournaments which were the chief
military exercises and display of the
age of chivalry. They were first prac-
ticed in England in the twelfth
century but previous to this time
tournaments and jousts were held regu-
larly on the continent and besides
being the appropriate sports and pas-
times of a warlike era and caste they
were intended to test the skill of the
knights and squires who took part in
them.

These tournaments were practically
the equivalent of modern reviews and
sham fights and were designed as a
preparation for the actual maneuvers
and real conflict of the battlefield.
They not only increase the riding
capacity of the contestant but both
the eye and the hand are trained by
practice to accomplish feats which are
equally impossible to a novice and in-
teresting to a crowd.

Those who are at the fair grounds
on Friday will have the privilege of
witnessing tilting at the ring for the
first time in Janesville.

ONE-LEGGED TRAMP STOLE A SUIT

Crippled Vagrant Arrested at the St. Paul
Depot This Morning.

Sunday morning Sheriff Bear and
Officer Kruse arrested a one-legged
tramp at the depot just as he was
stepping on board the paper train for
Monroe. The arrest was made on a
dispatch from Chief of Police John
Adamson of Madison, saying that the
fellow was wanted on charge of lar-
ceny, he having taken two suits of
clothes from a store in that city. The
tramp had on a new suit, his old suit
being carried in a bundle. Chief
Adamson came down last evening,
taking his man back on the north
bound vestibule at 9:30 o'clock.

TWO BICYCLERS RIDE TO GREEN BAY

Tour of Illinois and Wisconsin Undertaken
by Energetic La Salle Youths.

Two young men from La Salle, Illi-
nois, George Peters and Frank Wil-
liams, arrived in the city at 9:30
o'clock this morning, on bicycles. The
boys came here from Elkhorn, and left
a few minutes after for Madison.

"We are out for a month's tour of
the country north," said one of the
boys. "We intend to go north as far
as Green Bay, and perhaps beyond
that point, if we do not get tired out.
We are not trying to make fast time.
Our only object is to see the country."

MISS ORMSBY HAS RESIGNED.

One of the Best Known of Janesville's
Teachers Steps Out.

Miss Clara Ormsby has resigned her
position as principal of the Washing-
ton school, and the resignation will
come before the school board at the
regular monthly meeting to be held
this evening. Miss Ormsby is now
visiting relatives in New England,
and it is rumored that she will remain
in the east for some time. She is one
of the best known of Janesville's
teachers. Always a favorite among
children she was exceptionally suc-
cessful in her work and many will re-
gret her withdrawal.

BOTH GAMES LOST BY THE ATHLETICS.

COUNCIL BLUFFS BOYS TOO
MUCH FOR THEM.

The Score Saturday Was 13 to 12 and
Sunday the Colored Battery Was
Put In and the Visitors Won
By a Score Of 12 to 9—Diamond
Dust.

The Athletics lost the second game
to the Council Bluffs yesterday af-
noon. Ever since the balmy days of
'87 when the famous St. Louis
Maroons helped Henry V. Lucas spend
a fortune of one hundred thousand
dollars people have never heard of a
club that wore the Maroon's colors but
there is nothing of a Jonah in the
visitors' colors for any one of them
could fall into a sewer and find a
gold watch as a man on the bleachers
observed. Yesterday's was the most
exciting game ever played on the
home grounds. Nobody left the
grounds until the last man was retired
and it was worth the price of any
man's money to see the colored gentle-
man with an arm as long as the wing
of a sand hill crane strike McGinley,
Shicker and George Wilbur out in the
ninth inning. Morrissey did not feel
well enough to play at the opening
but it got so exciting in the
sixth inning that Roberts retired and
Tom got in and tried to pull the game
out of the fire. Try as they would
the Athletics would not win.

Lutz was criticized for umpiring
when the people believed something
better was to be had. The games
are all pretty well patronized lately,
and it is insisted that the management
ought to give the people the best they
have in the box.

Connors, Taylor, Schooley and
Miller did the best fielding yesterday,
while Dixon, Graham, Taylor and
Lally led with the stick. Birming-
ham's muff of Connors' throw and
Graham's hit over the left field fence
scored two for the visitors in the first.
In the sixth, the Council Bluffs boys
hit McGinley hard. Two singles, a two-
bagger, Fyock's home run and errors
by Connors and Doran landed six runs.
One more counted in the third on
George Wilbur's error and sacrifice
hits by Brown and Franklin. Doran's
fumble of Taylor's grounder, Lally's
single and Beale's out from third to
first counted one more. Graham's
single and Taylor's home run counted
the visitors two last runs in the
eighth.

The home team tallied twice in the
third on Miller's error and Dixon's
drive over the left field fence. Two
more counted in the fourth on J. Wil-
bur's single, a base on balls to Rob-
erts and McGinley and George Wil-
bur's singles. In the fifth the Athlet-
ics counted five tallies on the short
stops, two errors, Doran's base on balls,
singles by Dixon and McGinley and
Graham's muff of J. Wilbur's third
strike. Score:

Saturday's game resulted in a defeat
for Janesville by a score of 13 to 12.
The Athletics went to Beloit this
afternoon and tried their skill again
with the Council Bluffs Maroons. The
Maroons say their Janesville games
were about as hot contests as any they
have had.

The South Main Streets beat the
Janesville Colts by a score of 22 to 8
Sunday forenoon at Dunn's pasture.
Larson and Slightham played the
points for the Main street boys and
Lutz and Hogan for the Colts.

The Main Streets are trying to ar-
range for a game with the Y. M. C. A.
nine for Wednesday of this week.

Do You Own Your Own Teeth?
The question—Is a man the owner
of his own teeth?—has come before
a German court at Gera. A man
who had been suffering for some
time with the toothache made up
his mind to have the tooth taken
out. The stump proved a difficult
one to draw, and when it was out it
was of such curious shape that the
dentist declared he would keep it as
a curiosity. His patient, however,
thought he would like to keep it
himself, and claimed it; but the den-
tist, on the ground that a tooth,
when drawn with the free consent of
a patient, is ownerless property as
soon as it leaves the jaw, refused to
give it up. The patient at once
entered an action against the dentist.

Our hat opening will take place the

abades will be the centre of attraction.

BY WAY OF DIVERSION.

White—I wonder that Gray should
think of marrying that woman. She
is not on speaking terms with her own
mother. Black—Perhaps that is why
Gray marries her.

Higgs—Your office is right near
mine. Your hours are from 9 to 4,
are they not? Biggs—Yes; how did
you know? Higgs—Oh, I see you go-
ing to work about 10 and coming home
about 3 every day.

Nettie—Grandma, you must cut my
birthday cake. Grandma—Thought-
ful little darling! But why don't you
cut it when it is yours? Nettie—
'Cause I'd have to give you a bigger
piece than you'll take yourself.
'There's one thing I hope," was the
bitterly spoken remark of the boy
who had been subjected to paternal
discipline. "What?" asked the neigh-
bor boy. "That when my grand-

min' he done it good."

"Well, little girl," said the grocer,
"what can I do for you." "I don't
want to buy anything," replied the
little girl. "Mamma told me to find
out the prices and then come back.
How much will I have to pay to get a
dollar's worth of sugar?"

"You are most entertaining," re-
marked the gallant old gentleman to
his fair partner at dinner. "I assure
you that I envy your future husband."
The maid turned an appealing face
toward him. "Would—would you
mind introducing him?" she asked.

"It is going to be pretty tough
sledging for me the next few months.
I owe so much that it is going to take
every cent that I can make to pay
out." "That is where I have the best
of you. I have quit worrying. I owe
so much that I have given up all idea
of paying out."

Elsie—What is that you say? Bryce
married? Well, I will never believe
in men again. Edith—Why? Elsie—
the vows that man made to me! Edith—
Well, but you threw him over.
You've been married four months.
Elsie—I don't care; he was so devoted
to me. He might have been decent
about it. He might have kept single
for six months anyway.

CHARLES FERGUSON FALLS BE-

Nothing in His Pockets to Identify

Charles Ferguson who has been
working for seven years on farms
south of this city, died suddenly near
Whitewater Saturday. For a time
much mystery surrounded the case.
He had asked for work three or four
days before at David Godfrey's and
Mr. Godfrey kept him to assist in his
threshing. He seemed to be much
better than the ordinary tramp and
worked well all day Friday. While
cleaning up about the machine at the
close of work he was seen to go to a
fence near by, then return, and soon
after go back to the fence and begin
vomiting blood in great quantities.
Before help had reached him he had
fallen over and was dead. He was a
man about fifty years old, stoutly
built, probably five feet seven inches
tall, light complexion and blue eyes.
No mark or scar was found on the
body. The pockets contained \$2 in
money. He told Mr. Godfrey to call
him "Charley," but in talking with a
Swede who works on the place he said
his name was Charles Ferguson, that
his wife was dead, that he had two
sons in Dakota and that he worked
near Beloit. The body has been
placed in the vault at the cemetery
for a few days for identification by
friends.

HIS FAVORITE MEDAL.

One Given to Bismarck for Saving His Hostler's Life.

One June morning in 1842, while his regiment was stationed for the summer's manœuvres at Liphehue, Bismarck and several officers were walking near the river. As they started across the bridge Bismarck saw his hostler, Hildebrand, enter the water from one side on his horse.

The river was swift, and to the dismay of the officers the horse lost his footing and threw his rider. The man began to sink at once. Bismarck, seeing his peril, quickly doffed his coat, sword, and cap, and jumped into the water, grasping his servant.

The man, however, insane from fright, caught hold of the future prince, and prevented him from moving his arms. A struggle followed. Bismarck, finding it impossible to loosen the death-grip while the man was above water, finally dived with him, and thus forced him to give up his hold upon his arms.

The officers on the bridge were certain that both men were drowned, when Bismarck again rose to the surface of the water, with his hostler unconscious in his arms. Being a good swimmer, and possessing in those days the strength of Hercules, he soon carried his burden to the shore.

His brave deed was rewarded with the medal for saving life.

For years and years after Bismarck had become the most powerful statesman in Europe, with the title of prince, with decorations and orders from nearly every sovereign on the continent, he wore this medal alone on his breast upon all state occasions.

On the Safe Side.

Everybody knows that it is a good place to be, but everybody does not take measures to be there. An efficient preventative, takes us on the safe side of incipient disease, and there is no one more reliable than Hostetter's Stomach Bitters in cases where the kidneys are inactive, which is not the preliminary to various destructive maladies, which disregarded have a fatal termination. Bright's disease, diabetes, dropsy, oedema, are but the outgrowths of neglected action of the kidneys and bladder. They should be checked at the outset with the Bitters, which will prevent their progress by arousing the renal organs to activity, and thus place them on the safe side. This preservative of safety also conquers constipation, liver complaint, malarial fever, nervousness and dyspepsia.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

A two year old daughter of Herman Haunfeld of the town of Beaver Dam burned to death.

JAMES SULLIVAN of Oshkosh, is to spend six years at Waupun, for murderously assaulting his wife.

LARGE quantities of Pacific coast lumber and shingles are passing through Superior to New York city.

F. J. LEWAEENZE, a farmer of Horicon, Wis., fell from a straw stack on Friday last, breaking his neck.

LAST week the mills at Superior and Duluth made 95,625 barrels of flour, an average of 15,937 barrels daily—beating the production of any previous week.

THE Indian berry pickers in the northern part of the state were successful in a strike for better pay. The growers were obliged to come to terms or see their berries go to waste.

AN attempt was made in Berlin to burn the Western house barn by throwing into the hayloft a brick that had been heated red hot, covered with sugar and wound with cloth.

MARK RICHARDSON shot his brother George near Platteville. Mark beat George in court and had his grain stacks burned that night, which made him angry.

THEY have a novel way in Elroy of working the blind pig scheme. Certain citizens go about the streets with liquor in their coat pockets, and those who are dry drop a dime and put out a bottle of the genuine article, take a drink and move on. It is similar to dropping a nickel in the slot. The dime, however, is a sure winner.

ANNUAL LAWN FETE OF THE Y. M. C. A.

Big Social on Alex. Graham, O. G. Bennett and C. C. Bennett's Property.

The first social entertainment ever given by the Young Men's Christian Association of Janesville, will occur at the homes of Alexander Graham, and O. G. and C. C. Bennett on Milton avenue next Saturday evening, from 7 to 10. Music vocal and instrumental, and other interesting features can be expected. Ice cream and cake will be served and the public is cordially invited to be present. The young men will make

all arrangements, wait on tables, act as reception committee, and will be fitted out with the proper costume for the occasion. The Ladies Auxiliary of the Y. M. C. A. have decided to take July and August for their vacation, and the remaining ten months of the year they give monthly socials to young men. This midsummer lawn social is to be made an unusual affair at which time the young men wish to invite the auxiliary to be present as guests. Street cars will run direct to the grounds and arrangements will be made to accommodate the people until a later hour than usual.

A SUBTERRANEAN OCEAN.

It Extends Under Kansas and Nebraska and Part of Indian Territory.

The best scientists of the land favor the opinion that Nebraska, Kansas and part of Indian territory are situated over an immense underground lake or sea, says the St. Louis Republic. It is a well-known fact that in several places in Kansas whole sections of land have suddenly disappeared, leaving only fathomless lakelets to mark the spot where they were once situated. Proof that there is something peculiar with the foundation of the section of the country mentioned may be found in the celebrated "tide wells" of Polk, Butler and Colfax counties in Nebraska. Polk county is best provided with these curious wells, having between a dozen and twenty, which roar and ebb and flow with an unseen tide. The roaring of these remarkable curiosities (they cannot be called natural wonders, because they are the work of man, at least so far as excavation is concerned) is caused by the inhalation and exhalation of immense quantities of air. There are hours, regular and uniform, in which the air will rush out with a loud, hissing sound, and again an equal space of time in which it seems that all the air of the Platte valley will be sucked into the cavernous depths of these wonderful wells.

The period of this ebb and flow does not seem to depend upon either the season or the state of the weather, but it is thought to have some mysterious connection with the high and low tide periods of the Atlantic and Pacific oceans. A meteorologist of natural reputation, who sought to fathom the mystery of the "Platte river tide wells," and who issued a little pamphlet with the title "Roaring Wells of Nebraska," gave it as his opinion that the roaring phenomenon was in some way connected with the prevailing direction of the wind, being strongest in time of west or southwest breezes. The farmers in the three counties mentioned as being best provided with these tide-regulated, air expelling wells believe that the water supply is connected with a body large enough to have a regular ebb and flow of tide. All the wells in the counties of Polk and Butler which are tide-regulated are of about the same depth, those of Colfax being deeper, but all extending to a porous stratum having the same general characteristics.

The Sun Slowly Burning Up.

Sir Robert Ball, the astronomer royal of Ireland, says there is a distinct limit to man's existence upon this planet, and that the length of that period will be controlled by the final exhaustion of the sun. It seems, from his figures, that the "great orb of day" has already dissipated four-fifths of the energy with which he was originally endowed, and that without being reinvigorated by some extraordinary process, can not hold out more than 10,000,000 years longer, and possibly not more than 4,000,000 years. The series of figures from which he deduces this startling result may also be juggled around in such a manner as to show the age of our great luminary, which the professor has set down at 18,000,000 years.—St. Louis Republic.

"Isn't it dreadful," she exclaimed, "to see the way that elderly belle is trifling with the affections of young Callowby?"

"It is, indeed," replied the other girl. "Somebody ought to report the case to the S. P. C. C."

Read What Users of Majestic Steel
 Ranges Have to Say:

Messrs. A. H. Sheldon & Co.

Gentlemen: The Majestic Steel Range you placed in the County jail, last October we have used constantly since. It does the work absolutely to perfection, bakes beautifully and evenly, uses little fuel. Works equally well with wood or hard coal. It is by far the best cooking apparatus I have ever used.

Respectfully Yours,

J. L. BEAR, Sheriff Rock County.

Janesville, Wis., August 1, 1894.

Messrs. A. H. Sheldon & Co.

I am using a Majestic range bought of Lowell Hardware Co. It works perfectly with either coal or wood. Bakes evenly with much less fuel than any other stove I ever used. I would not part with it if I could not get another.

MRS. HARRY T. KNOWLES,

The above Range was taken from Mr. Frank Parker by Mr. Lowell and sold to Mrs Knowles,

Janesville, Wis., August 4, 1894.

A. H. Sheldon & Co., Janesville:

GENTLEMEN: I have been using one of the Majestic Ranges for a year, and find it perfect in all respects. I have used both coal and wood, and find it very economical.

Yours Respectfully,

Janesville, Wis., August 2, 1894.

A. H. Sheldon & Co., Janesville:

I have been using a Majestic Range for the past year and a half, and I think it beyond question the most complete Range I ever used. I have used hard coal, soft coal and wood and it works equally well with all. It requires but half of the fuel that is used in an ordinary stove. It is just as good today as when placed in my kitchen. I heartily endorse the Majestic. It is a jewel.

MRS. H. C. PETERS,

257 Academy Street.

Madison, July 18, '94.

Summer & Morris, Hardware Dealers: Gentlemen: You ask for my opinion of your range. After eight days' use I find it has not a fault and that it has more good qualities than even its makers have claimed. It is exceedingly economical and doing its work with so little fuel, makes quick cooking possible after the fire is no longer needed. This with other characteristics and its own adaptability to both wood and coal make it acceptable in the summer kitchen. Ordinarily using wood, we burn hard coal on laundry days, and I shall detail yesterday's performance as a proof of general excellence. The laundress ironed from 7 a. m. to 2:30 p. m.: for breakfast we had mutton chops deliciously broiled in the oven. rolls and coffee; for dinner, stewed lamb, rice, peas, and a pudding; and the entire amount of fuel consumed was a trifle more than half a bucketful of coal. Very truly,

MRS. JUDGE BALZELL.

Madison, July 18, 1894.

Summers & Morris, Gentlemen: Having used a combination Majestic Range I cannot praise it too highly for its good baking qualities and its water heating capacity. And at the same time its economical consumption of fuel being two-thirds less than any range I have yet come in contact with. Being in the machine business all my life I have thoroughly examined the Range and find it perfectly and substantially constructed in every respect and cannot recommend it too highly to anyone wanting a perfect range.

CRY OF FIRE RAISED ON A RIVER BOAT

PANIC ON THE COLUMBIA SUNDAY AFTERNOON.

Smoke Puffs Through the Floor and Women and Children Shriek In Terror—Cool-Headed Men Avert a Serious Accident. Another Str A the Pier.

There was a fire panic on the passengers on board the steamer Columbia last evening as the boat was nearing the city on her way down from Crystal Springs. The Columbia was loaded heavily with passengers, who had spent the day in the woods around the Crystal Springs. The boat had not been long on her down-river trip before some of the passengers saw a whiff of smoke issuing from below the boiler deck. Nothing was thought of it until the Columbia rounded the bend at Greenland and was headed straight to her docks. Then the smoke increased in volume, and an excited passenger yelled "The boat is on fire."

Women and children screamed, and the men who remained cool did their best to restore quiet.

"Run the boat ashore," commanded Captain Buchholz, as he rushed to the boiler room to get the hose. The man at the wheel deserted it and the boat kept on in an unsteady course down the river.

Cool-headed men tore up some of the plank flooring and found the fire to be in the hold, underneath the furnaces. Quick work with pails and the tiny stream from the hose soon extinguished the fire, and the boat was landed safely at her dock.

Before the passengers had disembarked another cry of fire was raised, caused by escaping steam. This created almost as bad a panic among the women and children as the first alarm, and it was with much difficulty that the men prevented the women and children falling into the river in their wild rush to reach the dock. After the passengers had all left the boat Captain Buchholz made a thorough examination, and found that the fire was caused by a defective grate. This was soon remedied, and the Columbia steamed up the river on another trip. The damage to the boat by fire was very light.

Garland Takes the Lead.

It always pays, in the long run, to buy the best. This applies to ranges as well as anything else. Speaking about ranges, have you been in to see the Garland steel range, which is causing so much comment all over the city and so much worryment on the part of our would-be competitors? If not, you should do so if you contemplate buying. We can show you by comparison the difference between the Garland and an inferior quality, as we have some of the latter just to show our patrons the great advantage the Garland has over them. Some who have purchased other makes have been glad to exchange them for the Garland, as it is without doubt the best range on earth and we will have no difficulty in convincing you of the fact if you will but come in and see for yourself. We have difficulty in getting enough Garlands to supply our customers. Drop in this evening or tomorrow if you are down town, hear some good music and see what a good steel range looks like. Important Information.

The pressure to furnish cheap and inferior work has been very heavy from many sources; the Columbus Buggy Co. has constantly refused to furnish such work, until consumers generally, throughout the whole breadth and length of the land, know if they want an absolutely reliable vehicle, they must buy one manufactured by the Columbus Buggy Co. We have two very handsome phaetons manufactured by above house that we will dispose of very cheap.

JANESVILLE CARRIAGE WORKS.

WORKMEN ARE ENTHUSIASTIC.

They Tell a Characteristic Story of Major William Upham's Generosity.

The republican ticket is in high favor with the working people. Men looked upon as democrats declare openly that they will support and vote for the republican nominees. The following was told by a democrat of his personal experiences with Major Upham in the presence of a number of young democrats: "I was sitting in Major Upham's office at Marshfield last winter talking lumber. We had been buying hard wood from him for some time. A workman, one of Mr. Upham's employees, stepped in to the office. The major greeted him, calling him 'Charlie,' and asked him about himself, his family and so on. The man had been out of work for some time, because the mills and factories on account of hard times, had been shut down. The plain, open manner in which Major Upham greeted the visitor put him at once in good humor, and without any hesitancy he declared that he would like to have the major advance him \$5, of which he said he was greatly in need. 'Why of course,' said Major Upham. 'Cashier give Charlie \$10.' Nothing in the major's tone indicated that he was conferring upon the workman any favor. The man felt himself dealing with his equal, and his appearance showed the gratitude he felt to the major. I do not blame the working people of Marshfield if they love him and are devoted to him. Major Upham is certainly a good man." The foregoing was told to a Milwaukee Sentinel reporter by P. T. Graves, the secretary of the Milwaukee Chair company, in the presence of many of his friends.

BEYOND THE DARK RIVER.

Funeral of Mrs. Lucy Green.

The remains of Mrs. Lucy Green were buried in the Fulton cemetery Sunday afternoon. Mrs. Green died at the home of her daughter, Mrs. T. E. Sayre, Ravine street, Friday afternoon, aged seventy-three years. She was an old resident of Rock county, and had been an invalid for the past eleven years. She leaves four children—J. L. and F. C. Green, of Reading, Pennsylvania, M. J. Green and Mrs. T. E. Sayre Janesville. Brief funeral services were held at the home of Mrs. Green in this city yesterday afternoon, conducted by Rev. Dr. M. G. Hodge, and at the grave by Rev. Messrs. Reed and Roswell. The pall bearers were J. L. Green, M. F. Green, E. J. Green, Henry Green, T. E. Sayre and Albert Rice. There were a large number in attendance at the services, both in this city and in Fulton.

Jay S. Mayhew.

Jay S. Mayhew died very suddenly last evening at the home of his father, William P. Mayhew, 128 Washington street. Mr. Mayhew had been in poor health for a long time. He was able to be about the streets, however, and was walking out last evening. He sat down in an easy chair on reaching home and was seized with a severe coughing spell. It was in a spasm of coughing that he ruptured a blood vessel, and expired in a few minutes. Mr. Mayhew was formerly employed by the Northwestern railway as a brakeman, and in other capacities. He leaves a wife but no children.

Annie Marie Clifford.

Cholera infantum caused the death of little Annie Marie, the fourteen-months' old daughter of Mr. and Mrs. John Clifford, North street, Sunday morning. The little one had been sick only a few hours previous to death. Funeral services were held at St. Patrick's church at 3 o'clock this afternoon, the remains being buried in Mount Olivet.

Funeral of Mrs. Mary Wright.

The remains of Mrs. Mary Wright were taken on the 12:40 p. m. train on the Northwestern road this morning for interment. Funeral services were held at the home, 202 Mineral Point avenue at 11 o'clock, attended by a large number of friends.

The Majestic.

We will not insult the good people of Janesville by thinking they would be influenced by the transparent clatter, trickery and efforts to deceive them by our would-be competitor in the Steel Range trade. The Majestic Steel Range is without doubt the best cooking apparatus in the market. We will give a guarantee with each one and will pay one hundred dollars for any one that will not work perfectly if properly set up. We hope our friends will take advantage of the special price given by the Majestic Co., as we cannot continue this a ter the salesman leaves. A. H. Sheldon & Co.

Pittsburg G. A. R. Encampment.

PITTSBURG, Pa., Aug. 6.—The more than 1,300 committeemen comprising the citizens' executive board of Pittsburg are hustling to make the twenty-eighth national encampment of the Grand Army of the Republic, to be held here in September, a big success. The indications are for a great turnout of veterans. It is expected that Gen. Harrison and Gov. McKimley will attend. Gov. Pattison and his staff will be guests of honor also.

FREMONT, Aug. 6.—There was a heavy frost in this county yesterday morning, but so little vegetation was left by the hot winds that little harm was done.

MR. WELCH FINDS DEVILS JUMP BACK

EVANGELIST "STUMPED" BY THE JANESVILLE BREED

Clears Sufferers Out For \$35 But Can't Afford to Stand Guard Over Them and See that the Imps Do Not Resume Bsns At the Old Stand.

Evangelist Welch's tent came down today, and a move to softer spots is anticipated. Lately some of the Bower City "redeemed" have been getting obstreperous. They have shown discontent because their devils wanted to come back after hard cash had been paid for their removal.

This is unreasonable.

Evangelist Welch has learned by this time that the Janesville breed of devil has great tenacity. Thirty-five dollars may pay for ousting him, but to insure against his getting in by the cellar door, the pantry window or the chimney before the evangelist is fairly outside the front gate, is worth many times thirty-five dollars. No wonder Evangelists Welch and Devilry seek other pastures.

It was said at first that they merely planned a move to the east side of the river where sin is said to be less deep-seated. This Mr. Welch denied.

"The only point for us to decide," he said "is his congregation last night, 'is whether we shall return to Janesville later.'"

A big meeting was held this morning to discuss plans and two hours later the tent was lowered.

W. R. C. SOCIAL A SUCCESS.

Mayor Thoroughgood's Lawn Proved a Very Attractive Place.

A handsome addition to the W. R. C. treasury was made by the lawn social Friday evening. Another social will follow soon, but it will be difficult to surpass Friday's record. Mayor Thoroughgood's handsome lawn was crowded, and besides the refreshments a musical and literary programme was presented under the direction of Mrs. Andrew Gibson. Mayor Thoroughgood made a brief address and there was music by the Orpheus Mandolin club and by Misses Ethel Willis, Ollie Trumble, Sadie Holt and Sadie Fatters; readings by Miss Lou Fenton and stereopticon views shown by W. W. Willis. The crowd was highly delighted with the entertainment and promised enthusiastic support for succeeding socials.

OMAHA, Neb., Aug. 6.—Major Worth, of Fort Omaha, is to be brought to trial Aug. 13 on the charge of disobeying the Lincoln order in ordering Private Cedarquist to shoot at a target on Sunday. The court martial order has been issued, and the major is "in arrest" in military parlance.

SINGS AND WHISTLES.

Fannie Mead's Gifts as a Singsonger Are Natural Ones.

One of the principal features of the program at a New York theater recently was the whistling of Miss Fannie Mead, a pretty young Brooklyn girl. Like Mrs. Shaw, she is able to whistle the most difficult music with an ease and finish truly wonderful. The gift with her is a natural one. As a child it was just as easy for her to whistle as to talk. Constant practice, assisted by a true and delicate ear, enables her now to execute the most absolute runs and trills with absolute precision and purity of tone. Miss Mead made her debut three years ago in the city of churches. She is also the possessor of an excellent

FANNIE MEAD, soprano voice, and can sing high C with perfect ease.

THRIFT OF UNION MEN.

When They Go On Strike the Public Does Not Feed Them.

The report of the Chicago Central Relief association to the Civic Federation shows that the cash contributions amounted to \$135,268.34. This money was used to feed, clothe and house unemployed men last winter, says the Record. The total number of meals furnished from the three kitchens was 462,084, making an average of 4,621 a day. The total number of days when the men taken care of by the association worked on the streets was eighty-three and the average number of men working each day was 2,275. Each man worked an average of three hours and thirty-five minutes a day. The association issued in ninety-four days, 232,066 lodging checks to regular lodging houses and there were 8,652 orders issued on the warehouses for family supplies. In addition to the lodging checks there were 13,612 lodgings given by missions, and during the winter 41,327 men found lodging in police stations. The following suggestions are given in the report:

"There is a general feeling of impatience among persons who are commonly generous givers to the unfortunate over the present industrial situation, complicated as it is by strikes with the consequent idleness. In view of this the following remarks seem necessary: Workingmen who strike are, for the most part, mechanics or skilled laborers who usually receive good wages and lay by money for an idle day. When they become needy they can usually borrow of their associates who have been more thrifty or who are under less expense or the unions care for them until work is resumed. But few union men apply for relief. The majority of those who apply for and receive help from charitable institutions or who worked for the Central Relief association during the winter of '94 were men who have no trade or are not well fitted to make a living at times when there is great depression in business. Many of them come to the front for assistance every winter, and they were predominant in the work of the Central Relief association the last winter."

Harriet Beecher Stowe's Age.

Harriet Beecher Stowe was nominally 82 years of age on Thursday, June 21; but according to the Hartford Times she was really 83. It explains the matter thus: "The Times has once before stated that the biographies and encyclopedias are all in error as to the year of her birth, and also concerning the natal year of Henry Ward Beecher. Both are published as having been born one year later than they actually were. A consultation of the old family Bible settles it. Mrs. Stowe was born in 1811 and Henry Ward in 1813. The famous author is in her customary state of good physical health and is as cheerful as ever, though her mental state is and has been for several years not what it used to be."

Lady Maria Forester.

A correspondent of a London newspaper calls attention to the recent death in England of the woman who sent Florence Nightingale to the Crimea. She was Lady Maria Forester, youngest daughter of the Earl of Roden, who found herself, in 1852, the childless widow of Major Charles Forester, of the Twelfth Lancers. In the winter of 1854-55, while her brother was serving before Sebastopol, she got stirred up about the condition of the wounded, determined to have something done, and was directed to Miss Nightingale as the fittest person to do it. She went to see her, with the result that Miss Nightingale went to Crimea, and the modern system of nursing began.

The Chase Family.

George Colby Chase, the newly elected president of Bates college, was born in Maine in 1844. He belongs to that branch of the Chase family from which sprang one of the signers of the Declaration of Independence and also Salmon P. Chase. As a boy he did a good deal of hard work on a farm, with now and then a few weeks in the old-fashioned country high school.

AT WORK ON AN ELEPHANT.

Three Inches of a Diseased Tooth Cut Away and the Cavity Filled.

Liga, an unusually intelligent animal which has for years been performing at the Nouveau Cirque, Paris, some time ago injured one of his teeth, and has suffered from toothache almost continuously ever since. The huge animal which had hitherto been particularly docile, began to show signs of ill temper as a result of suffering from what Burns called "the hell o' a disease," and the management of the circus instituted an investigation. It was noticed that Liga was in the habit of chewing up such wooden beams as came within his reach, at the same time trumpeting with great violence, and the conclusion was arrived at that the poor brute was suffering from toothache. This was found to be the case by Professor Valadon, of the Paris dental college, who was called in to diagnose the case. The elephant had scraped away the ivory and dental pulp from one of his molar teeth, the result being a decayed place about the size of a five-cent piece. Professor Valadon decided that this would have to be excavated, and succeeded in doing the work with his largest instruments, the patient being meantime fed with sweets so as to keep him quiet. The intelligent pachyderm evidently understood that the dentist "must be cruel to be kind," for he hardly winced during the trying operation. A space of three inches was cut into the diseased tooth, after which the cavity was kept filled for weeks with iodine-soaked cotton. When the nerve had in this way been killed the huge hole was filled with composition, covered with a tin cylinder. Three hundred dollars' worth of gold would have been necessary to fill the cavity. Professor Valadon's efforts have apparently been entirely successful, for Liga, who is about 9 years old, has resumed his old-time good temper.

Selling His Epaullets.

A lieutenant in the reserve of the Italian army and a resident of Genoa was recently discharged on account of his socialist tendencies. In a letter addressed to the paper Era Nuova, he has offered his epaullets to the fund of propaganda for the socialist cause. These ensigns of his grade will be sold at public auction, upon a first bid of 35 lire, or \$7, at which price a jeweler offered to buy the epaullets.

GREEK DEPUTIES AS BANDITS.

No Wonder the Land of Homer Is Unsafe for the Traveler.

The discovery that two Greek deputies have been acting as protectors of the bandits in the land of Homer shows the alarming power which robbers have acquired there. "The bandits," says a Berlin paper, "understand how to win the sympathies of the Greek officials. Indeed, the mayor of Duzesti recently gave a dinner in the city hall in honor of a robber band. A few days ago it was announced that the two Greek deputies, Ghiannussis and Hadjikagis, were arrested on the charge of being professional robbers. The complaint against these two deputies is a unique document, reading as follows: "At the beginning of August, 1892, a band of robbers, under command of the Messrs. K. Tsanaka and G. Tsouka, armed with Chassepot rifles, crossed the Greek border at Kastanka, and appeared upon the Turkish estate of Hairedden Bey. After stealing everything possible, the robbers took possession of the landed proprietor, Hairedden Bey, and took him back to Greece. The deputies Ghiannussis and Hadjikagis had already informed the border soldiers that their friends, eleven in number, would cross the border with a Turkish prisoner, and made arrangements that they facilitate as much as possible the return of the Greeks to their native country. The soldiers carried out the wishes of the deputies in the most friendly way and even supplied the band with victuals. One night was passed on the Turkish border. On the following night the band with the prisoner proceeded to the village Tekka, which belongs to Deputy Ghiannussis, where the deputy and his two brothers, Constantin and Alexander, awaited them. After a short rest the robbers took their prisoner to the village of Duzesti. On October 3 the two deputies, accompanied by Kristodolos Dimakis, the mayor of Kastanea, who was charged with the pursuit of the robbers, appeared in Duzesti, where a long conference with the prisoner followed. It was finally told him that he would be held captive until his family sent a certain ransom for him. This happened, in fact, in November. The money was divided among the two deputies, the mayor of Kastanea and the band of robbers.

It is certainly small wonder that travel in parts of Greece is reported unsafe, when even members of the national legislature, called to make laws are accused of being professional bandits.

Found It a Blessing.

Dr. Guthrie, of Edinburgh, after carrying on ragged schools in that city for a number of years, sent invitations to a dinner to boys who had found a blessing in the schools. Two hundred and fifty responded, one gentleman traveling 500 miles to be present.

Adapted to Flats.

A baby carriage designed especially for those who live in flats, looks like any other baby carriage when it is in use, but it can be folded together so that one person can handily carry it up and downstairs.

CURES OTHERS

To build up both solid flesh and strength after grip, pneumonia, fevers and other prostrating diseases, there is nothing to equal Dr. Pierce's Golden Medical Discovery.

PROSTRATION FOLLOWING GRIP.

Mrs. REUBEN GARRETT, King George C. H., Va., writes: "I was taken with grip which finally resulted in pneumonia. Was prostrated for three weeks. Had a terrible cough and was emaciated and very weak. Was fast drifting into 'quick consumption.' I wrote you, and you gave me medicines all the time. I grew weaker. He advised cod liver oil emulsion. I took two bottles of it without any relief. I had pain in my left shoulder and back. I wrote you, and you prescribed your 'Golden Medical Discovery.' I took only one bottle before I felt better. After two bottles I could sit up, and feel I had been saved from the grave. I increased rapidly in flesh and strength."
